Past President

Warm greetings from Guam and the Western States Boating Administrators Association. We are pleased to announce WSBAA will be hosting the highly anticipated 63rd WSBAA Annual Conference at the **Westin Resort Guam** on **May 19-22, 2025**.

This event brings together boating law administrators, industry leaders, and recreational boating and safety professionals from 20 member states and territories and 7 associate members across the United States, and the Pacific region along with members of the United States Coast Guard and U.S. Coast Guard Auxiliary. It's a platform to exchange ideas, explore best practices, and collaborate on strategies to ensure safety and innovation in recreational boating.

WSBAA is a nonprofit organization that relies on the generosity of sponsors to help make this important event possible. Your sponsorship would help offset conference costs, allowing us to continue our mission of promoting education, collaboration, and advocacy. At the same time, sponsorship offers your organization valuable exposure to a targeted audience of decision makers and industry leaders.

The conference location, Guam, is particularly meaningful, as it reflects the shared commitment of our island community and WSBAA's broader network to strengthening partnerships and enhancing safety on the water. We are excited to showcase Guam's hospitality and create a space for impactful connections among those dedicated to this work.

We sincerely hope you'll join us as a sponsor for this important event. Our team of volunteers will reach out to explore your interest and sponsorship benefits.

Thank you for considering this opportunity. Your support makes a tremendous difference, and we look forward to working together to advance boating safety and innovation.

Si Yu'os Ma'ase (Thank You),

A handwritten signature in blue ink, appearing to read "Mark Torre".

Mark Torre
President

FUN FACT

Chamorro Proa Legacy

The Chamorro proas were not only practical vessels but also masterpieces of engineering and navigation. The Chamorro people were skilled sailors, using celestial navigation to travel vast distances across the Pacific Ocean. These vessels exemplify their deep understanding of wind, currents, and wave patterns.
